**Subject:** Status on the ERDC CAD Cell Modeling effort

ATTACHMENT: Lower CAD Report.doc

G'morning Dave! Attached is a status on the LHCC modeling effort. The full report is expected at the end of next week. Does this status report give you enough information for planning purposes at this time?

Pl. advise.

Bob

Subject: RE: Can you give me a status on the CAD Cell Modeling effort, so I can report durin <<Lower CAD Report.doc>> g tomorrow's project call ? Tx

Bob,

I have updated all of the short-term losses predictions with the latest findings of diffusion between dredging seasons and have added a loss due to overturning of the CAD cell water during the fall/winter. We have started writing the report and are about 40% done.

It looks like it will be about the end of next week before we will complete the draft of the entire report.

I am enclosing a revised executive summary and report outline.

Paul
